November 20, 2003.  
DeLand, FL.

Randy Harrod, an innovator in delivering e-financial services, received the e-Practice Partner of the Year Award for visionary excellence at the recent Net Gain 2003 Conference in San Jose California. Intacct's Net Gain 2003 conference, which is held each year in California, presents an award to the Intacct partner showing innovation and excellence in delivering the e-based accounting system and in marketing e-business initiatives.

Randy is President and CEO of Harrod CPA Group, of DeLand Florida. Harrod CPA Group offers a full range of financial services based on a model that uses the Internet for delivery of their services. This allows clients to use their financial information anytime, anyplace that Internet access is available. Randy has guided his organization into the digital age providing services at an affordable fee to help businesses grow from startup to powerhouse. The Internet-based model gives clients access to a team of financial and business consultants to help guide them through the daily minefield of choices.

Intacct Accounting On Demand™ is an industry leading solution that leverages technology to offer accounting management through the Internet. This program runs with IBM Managed Hosting services, which supports the IBM e-business on demand™ initiative. Through IBM's state-of-the-art hosting centers, Harrod CPA Group offers high-speed Internet connections with *burstable* bandwidth capacity. This program supports multiple hardware platforms and operating systems enabling faster deployment times and reduced solution risk and complexity.

Randy Harrod is a Certified Public Accountant in Florida and Georgia and is certified by the National Association of Certified Valuation Analysts. Residing in Deland, Florida, Randy has 23 years experience in corporate accounting with 15 years experience in multi-corporation accounting operations in the healthcare field. His advanced knowledge in financial and accounting administration, operations and telecommunications integration bring the right mix to direct the virtual executive management services offered by Harrod CPA Group.
